E-Lunch Box

AED 125.00

SKU: SG-008BK

Thermally insulated portable Electric Lunch Box to keep your food warm Tired of those cold and boring lunches? Hassled with waiting in the office queue to use the microwave? The E-Lunch Box is perfect for working professionals as it is a stylish and leakproof electric lunchbox that can be simply connected to a power supply to warm up your food so you can enjoy it more. Plug it in 30-45 mins in advance depending on the type of food so it can heat up sufficiently and open the release outlet so the steam dissipates before eating your food. Once heated the food remains at 70° celsius so you can enjoy it whenever you're ready to eat. The Lunch Box is easy to clean with removable parts and does not short circuit even when damp.
