Genesis Gifts: Your Trusted Partner for Corporate Gifting Since 1990

Excellence is Our Legacy, Quality is Our Promise

For over three decades, we've been crafting exceptional corporate gifts that leave a lasting impression.

Personalized Service, Tailored Solutions

We pride ourselves on being a versatile and innovative "Solution Provider", meeting the specific needs of a wider range of regional, national, and international clients.

Global Reach, Local Touch

We serve clients worldwide through our offices and partners across Abu Dhabi, Dubai, Sugarland (USA), and Mumbai. Our professional and amicable team is equipped to handle all your gifting requirements.

Unparalleled Selection & Customization

From our extensive catalog and impressive website to our membership in the Advertising Specialties Institute (ASI), we offer access to over 250,000 products. Our in-house services for embroidery, etching, engraving, embossing/debossing, screen printing, and UV printing elevate every gift, reinforcing your company's image.

Seamless Experience

Our efficient backend system ensures meticulous care and attention to every order, regardless of size.

We ship to any local, regional, or international location, making gifting effortless.

BRANDING TECHNIQUES

Choosing the right product for your promotional program is essential to achieving your goals. It is equally important to select the right decorating method for your promotional merchandise.

We have summarized the most popular branding techniques below to help you choose the best option for your logo and message.

01 Screen Print/ Silk Screen

Screen print or Silk Screen is the direct imprinting of a one-color design or text onto the surface of a product. The image is pressed through tensioned nylon mesh, leaving a paint-like appearance. This generally results in a better imprint than Pad Printing.

Highlight

Sharp, high-quality decoration on flat and curved surfaces

Material

Metal, Plastic, Polyester, Cotton, Non-Woven and Nylon materials

Shapes

Flat & Curved

Colours

Maximum of 6 colors for non-textiles and maximum of 4 colors for textiles

Products

Clocks, Powerbanks, Pens, USBs, Speakers, Sunshades, Mugs, etc.

Pricing

Based on Logo Size x No. of impressions

02 Sublimation/ Heat Transfer

Transferring is done by first creating a digital / screen print image on paper and then using heat to transfer it onto the chosen product.

Highlight – Allows for extreme detail like small text and multi-colored logos as well as a full image.

Material

Cotton, Polyester, Nylon, Ceramic, Metal and Wood

Shapes

Flat & Round

Colours

All CMYK Colours

Products

T-shirt, Caps, Bags, Jerseys, Ceramic Mugs, Wooden Plaques, etc.

Pricing

Based on Printing Size and Turnaround Time

03 Embroidery

Embroidery is decorating fabric or other materials with needle and thread or yarn.

Highlight

Rich and lasting look

Material

All kinds of woven and knitted textiles

Shapes

Flat

Colours

Maximum of 12 colors

Products

T-shirts, Caps, Jackets, Bags, etc.

Pricing

Based on total number of stitches

04 Laser Engraving

Laser engraving is a process that uses light to burn an image onto the substrate. The imprint color may vary depending on the material of the product. Laser Oxidation is available on items where the surface and the substrate are the same color. (The imprint turns black with Oxidation.)

Highlight

Gives the Logos a clean and polished look

Material

Metal, Plastic, Wood and Leather

Shapes

Flat and curved

Colours

Similar to the material with a little burnt shade/ Material inner shade

Products

Pens, USBs, Keychains, Clocks, Powerbanks, etc.

Pricing

Based on the Logo size or the laser machine time taken

05 UV Printing

UV printing cures ink instantly with UV light as it prints, delivering finer detail with no spread. Eco-friendly with low VOCs, odour and heat, it works on most substrates, including acrylic and aluminum.

Highlight
Perfect for multi colored logos

Material
All kinds of materials

Shapes
Flat & Curved

Colours
All CMYK colours

Products
USBs, Pens, Mugs, Powerbanks, Notebooks, Bottles, etc.

Pricing
Based on Printing Size and Turnaround Time

06 Debossing/ Embossing

This is a process in which a metal die is created from artwork. The die is then heat-pressed into the material, leaving a depressed or raised image of the artwork.

Highlight
Adds perceived value by creating a unique 3D look

Material
Leather, PU, Vinyl, Rexine/ Rexene, Cardboard, and Paper

Shapes
Flat

Colours
A darker shade of the material colour

Products
Wallets, Organizers, Notebooks, and Portfolios etc.

Pricing
Based on the Logo size and complications

07 Hot Stamping/ Foiling

Hot stamping/Foiling is de-bossing with a metallic finish, created by applying foil between the to-be-decorated surface and the die. Highlight – Adds perceived value by creating a unique metallic 3D look.

Highlight
Adds perceived value by creating a unique metallic 3D look

Material
Genuine and Artificial leather, Paper, PU, PVC and Cardboard

Shapes
Flat

Colours
Silver, Gold, Bronze and other basic metallic colours

Products
Portfolios, Wallets, Organizers, Notebooks, etc.

Pricing
Based on Printing Size and Turnaround Time

08 Pad Printing

Pad printing transfers an inked image from an etched plate to a soft silicone pad, which then presses onto the part – wrapping up to 180° for excellent coverage on difficult, small or curved products.

Highlight
Can print on soft round surfaces

Material
Plastic, Glass, Ceramic & Metal

Shapes
Flat and curved

Colours
Maximum of 2 colors

Products
Mainly used for Stress balls, Golf balls & irregular shapes

Pricing
Based on Logo Size x No. of impressions

With more than 35 years of experience in this industry, we take all the expertise into account to provide the best possible outcome for the prints and with our in-house facilities for the above methods of printing, we can control the quality and the turnaround time of the outcome strictly and provide an efficient service.

Our vast experience, combined with the following of industry best practices ensures a quality representation of every logo.

VICTORINOX

MT-014 **Swiss Army Tinker***

Whether you're simply moving through your day or journeying around the world, the Tinker pocket knife is the Officer's knife for tinkers on the move. You never know what you'll encounter out there, but you know that you and your Tinker pocket knife will always be ready to build, hack or fix anything.

MT-015 **Swiss Army Knife Spartan***

When you hear the words Swiss Army Knife, chances are you think of the legendary Officer's knife. And that legend continues with the Spartan pocket knife. This is the pocket knife that started it all. The one that helped people all around the world to get the job done. And wherever your everyday adventures take you, the Spartan is ready.

MT-009 **Cyber Tool***

The Cyber Tool is made for the best technicians. Taking the Victorinox legend into the digital age, this pocket knife comes with a bit wrench to open, fix and close any kind of IT gadget. Keeping the look of the traditional Officer's knife, the Cyber Tool has everything you need to become the master of digital transformation.

MT-016 **Swiss Champ Red***

The legendary Officer's Knife lives on in the Swiss Champ — the ultimate Swiss Army Knife packing 33 functions and endless possibilities. Wherever you are, it can fix it. Strip wire, scale fish or saw metal. Swiss made with pliers, scissors and magnifying glass for indoor and outdoor life.

Flip Lid*

DW-028 **GripBrew**

Disposing of Coffee Grounds in landfills is known to exacerbate the greenhouse effect, therefore by recycling used coffee grounds we can reduce the overall carbon footprint. This 350ml No Fall suction mug makes use of this concept as it is made of recycled coffee grounds. It also includes a convenient cover so you can release the beverage steam before drinking to avoid scalding.

- Double wall Suction Mug (BPA Free) made from recycled coffee grounds outer cover & 304 Stainless Steel Inside.
- Its capacity of 350mL is sufficient to enjoy all sorts of coffee, be it hot or cold.
- Spill-proof thanks to grip-pad suction technology.
- Durable, easy to carry and lightweight.
- One touch flip lid makes it easy to drink on the go.
- Fits in your hands and most of the cup holders conveniently.

DW-046 FlexDrink Pro
2-in-1 Mug

The FlexDrink Pro is a versatile 600ml double-wall stainless steel mug in sleek black. It features a dual-way drinking design and an ergonomic handle for easy carrying. Perfect for both hot and cold beverages, this durable and stylish mug is ideal for on-the-go professionals.

DW-035 CommuteEase
Steel Travel Mug with Handle

Made of 18/8 food grade stainless steel, this mug won't retain or transfer flavors with the electro polished inside and also sweat proof with colorful powder coating outside. 360-degree welded handle gives you a firm grip on your beverage.

We use Rayosan® from Archroma (formerly Clariant, Switzerland), backed by leading European companies dating back to 1886. Archroma's dyeing auxiliaries deliver high process safety and optimized right-first-time performance. Rayosan® deflects UVA and UVB rays like a mirror, enhancing the fabric's ability to block harmful UV rays from reaching the skin without affecting its colour, resilience or breathability. This innovative fabric provides maximum broad-spectrum UV protection, wet or dry.

*The Skin Cancer Foundation, USA, encourages the use of innovative fabrics specially treated with UV absorbers to protect your skin.

TSJ-002 UV Polo*

Stay cool, stay dry, stay protected.

Whether trekking through forests, journeying across deserts or enjoying outdoor activities, you need attire that matches the adventure. Our UV-protected polos with moisture management feature Cotton inside and Polyester outside, delivering comfort, stretch and performance.

Made from Super-combed Cotton and Micro-Polyester, our fabrics are tried and tested in varied weather conditions. Created by technical experts, Schwarzwald UV takes sun-protection apparel to the next level.

Key Features:

- Unisex performance polos made from a superior Cotton and Micro-Polyester blend
- Subtle contrast-tipped collar, cuffs, placket and side slits for a corporate look
- Double-textured fabric: Micro-Polyester outer layer for luster and a crisp finish; soft Cotton inner layer for comfort
- Moisture management pulls sweat away from the skin and transports it outward, promoting evaporation and a cooler feel
- UV treatment blocks UVA and UVB rays, protecting skin from the harsh sun

TSJ-004 Cool Polo T-Shirts

2 layer fabric PM & Cotton

Made from a special UV-protective fabric, this unisex T-shirt shields your skin from harmful rays, preventing sunburn and keeping you healthy and fresh for longer. Its sweat-absorbent technology keeps you dry and comfortable by pulling moisture away from the skin to the fabric surface.

The key innovation is its dual construction – a soft, breathable cotton inner layer for next-to-skin comfort and a durable polyester outer layer for long-lasting performance.

The salient features of this material include:

- Easy care
- Wickability
- Shape Retention
- Quick Drying
- Breathability
- Softness
- Total Comfort
- UV Protection
